# BRILLIANT CIRCUS PARADE

Most Magnificent Street Pageant Ever Seen in Utah.

WITNESSED BY THOUSANDS.

Thousands More Throng the Great Canvas-Covered Amusement Halls This Afternoon.

The circus is here with all of its gilded trappings. And a great circus it is, too. One that is more nearly entitled to the one that is more nearly entitled to the ninety-nine-times-out-of-a-hundred, superfactively given appellation, "the greatest show on earth," than any that ever crossed the Rocky Mountains. It ver crossed the Rocky Mountains, It is here but for one day. It gives but two performances—one of which is going with a whiri to a mighty audience at Baneball Park, Fourth West and Eighth South, this afternoon, and the last, which will take place this evening to what promises to be the largest audience ever gathered in one tent in Itah. ence ever gathered in one tent in Utah. The seating capacity is 15,000 and every seat, the circus people say, will be sold. The circus arrived in town some hours

The circus arrived in town some hours before day break this morning and soon an army of men were employed in pitching tents and making ready for the street parade, which left the circus grounds at 10 o'clock and wound its mile and a half column through the streets, which were lined, crowded, packed with a mighty multitude of people, all anxious to get a peep at the show that has made the name of the Ringlings, famous throughout the civilized world. A determined the streets would be supposed to the show that has made the name of the Ringlings, famous throughout the civilized world. A debe wearisome, not because of the lack of an interesting subject, but because of a too numerous ramification thereof, Probably the number and fine quality of horses attracted more genuine attention than any other feature. dromedaries, camels and what not, that go to make a first class circus parade. The big tents were crowded this af-ternoon when the performance opened shortly after 3 o'clock. Conspicuous among the wilderness of attractions was John O'Brien's sixty-one horse act, a wonderful performance in which this big company of horses are put through a series of pretty figures by the simple word of command. They are highly strung and nobly bred animals, and act with charming precision withut the use of bit, whip or bridle. Thi erformance alone is a captivating fea and gives a unique value to the

Ringling program.

Another striking number on the big bill is the several groups of performing elephants. These huge animals do about everything but talk, and that they do after a fashion. The quick and intelligent way in which they obey Prof. Lockhart and Herr Souder, the instructors, is truly wonderful.
